

Learn how to type on the computer keyboard: Free typing programs on the Internet (from Lodi Memorial Library)

1) Typing Web

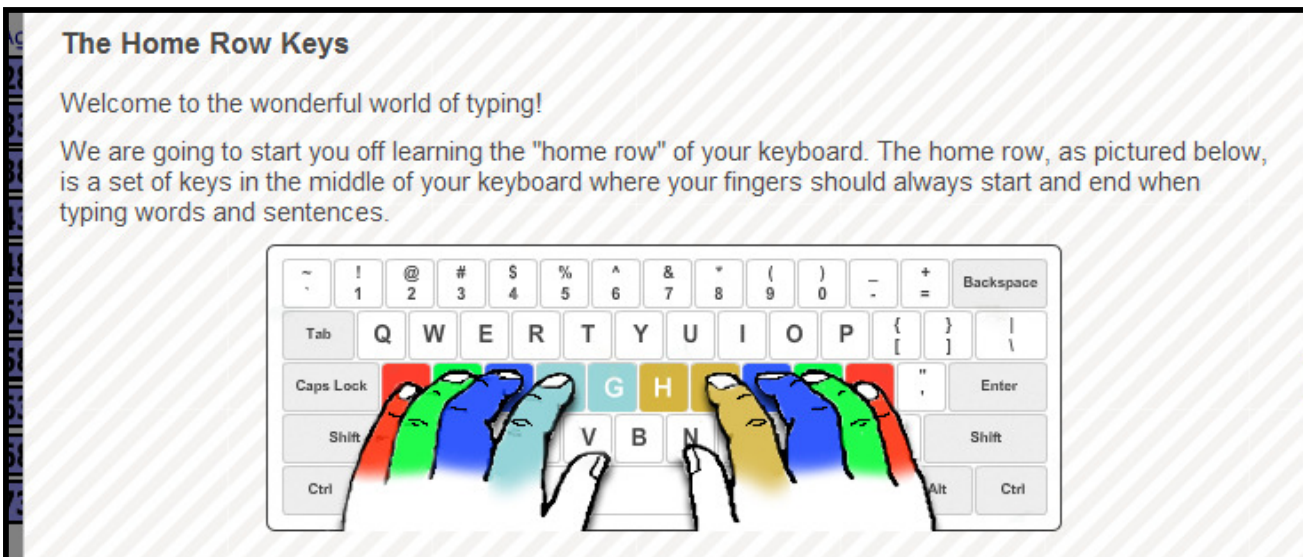

<http://www.typingweb.com/tutor/lesson/index/id/316/>

It is important to position your hands on the keyboard correctly. Your fingers must be in the middle row of your keyboard on the "home keys":

Starting with your left hand, place your little finger on key A, ring finger on S, middle finger on D and index finger on F. Your thumb must rest on the Space bar. With your right hand, place your index finger on J, middle finger on K, ring finger on L and your little finger on the next key.

Press Enter with the little finger of your right hand.

Always put your fingers back on the home keys after pressing any key.

Progress

The screenshot shows a typing program interface. At the top, there is a progress bar and a timer showing 00:17. Below the timer, the current typing speed is 0 wpm and accuracy is 100%. The main area contains three lines of typing practice with a mix of letters and spaces. At the bottom, there is a keyboard diagram with the left hand labeled 'L' and the right hand labeled 'R'. The 'J' key is highlighted in a green box, and a green target symbol is shown above the right hand.

2) Learn to type in Spanish or other languages with Good Typing

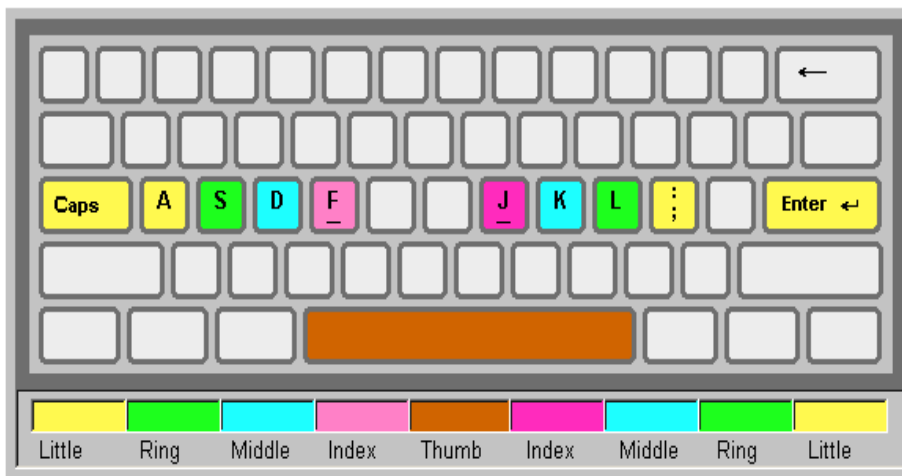

The program is free but you have to register. Need an email address and password or a username and password.

Lesson 1

Check that your CAPS LOCK key is OFF to write in minuscule (lower-case) letters.
Press the SPACE BAR with your thumb to advance between space separated letters.
Press ENTER at the end of every line with the little finger of your right hand.
Position your fingers back on the home keys after pressing any key.
Text size can be changed by clicking on the buttons at the bottom of this page.

Barb, carefully type the following text:

jjjj kkkk llll ;;;; aaaa ssss dddd ffff ;;;; llll kkkk jjjj
ffff dddd ssss aaaa ;;;; aaaa llll ssss kkkk dddd jjjj ffff
aajj sskk ddll ff;; jjaa kks lldd ;;ff ;;aa llss kkdd jjff
